WangShui

WangShui Maryam Hoseini

BY **ANDREW R. CHOW**

SEPTEMBER 13, 2023 7:00 AM EDT

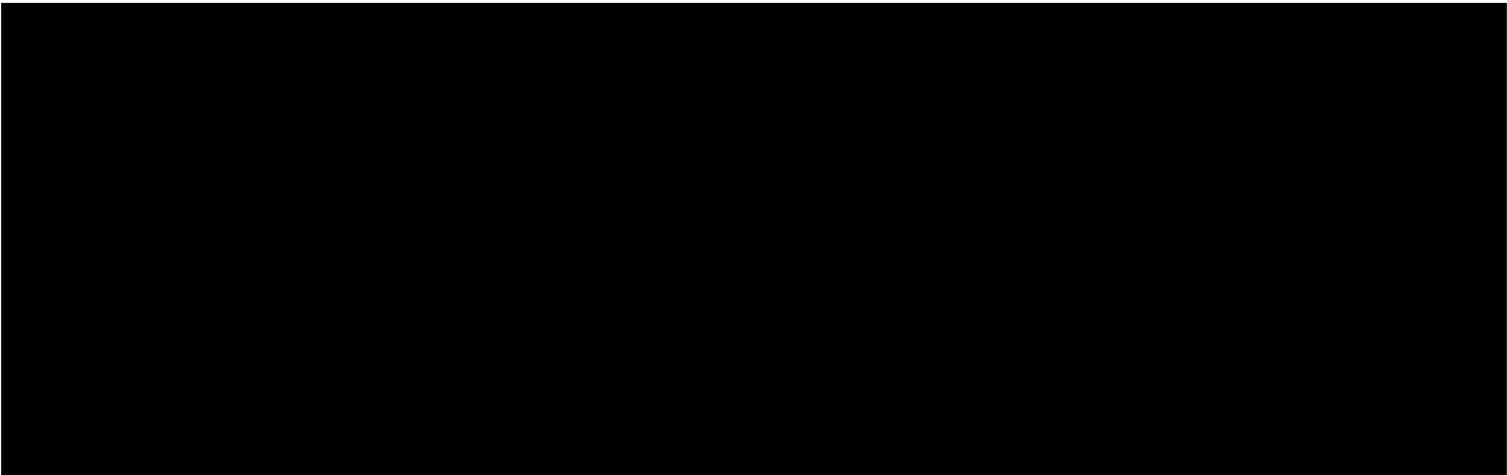

WangShui uses many strange tools and mediums in their art: they paint with rags, scratch on aluminum surfaces, and create art that changes based on the carbon dioxide levels of museum visitors. WangShui is also a pioneer of **artificial-intelligence** art at a time when many artists abhor its advances. They train an AI with their past work, which generates new images, which then inspire new works by hand. Those creations are on a world tour, stopping in Shanghai, Munich, and New York City.
